Permitted activities at a glance...

A first basic division of the NMPANS is

that of zones 'A' and 'B'. Zone 'B' includes the entire land part of Alonissos and the nearby islands (Peristera, Adelfia, Lehoussa, Gaidouronisia, Manola, Moules and other smaller islets), while Zone 'A' includes the remaining, environmentally

more vulnerable part of the marine park. Thus, the restrictive regulations in Zone 'B' are more lenient, while as we move away from the residential Alonissos and towards the core of the N.M.P.A.N.S., the regulations become more stringent.

Zone A includes the islands of Psathoura, Psathonisi, Piperi, Yura, Pappous, Kyra Panagia, Strongylio, Fagru, Myiga, Mellissa, Wasp, Grameza, Skantzoura, Korcas, Skandili, Polemika, Prasso, Lachanou, Kasidis, and other smaller islets.

DOs & DON'Ts in case you meet a Monk Seal

- Try to avoid panic or, on the contrary, excitement, sudden movements and by all means, any contact with the animal.
- If you are close to a cave, avoid its inner part and leave the entrance free so that the seal does not feel trapped.
- Like any wild animal, seals need quiet, distance and respect. Therefore, do not try to attract its attention, especially by making noises or throwing stones, sand or other objects at it.
- A seal is not a pet, nor a stray. So do not feed it.
- Keep children and pets away from the seal. Okay... now you get away from it too!
